Being in academia, I will be able to bring current topics/concerns/interests back to students and inform them prior to coming into the working field. My hope is that my involvement in the IAND will inspire students to also get involved once they are out working in the field.

Summarize any other leadership experiences that may benefit this position.

I have experience as a food service manager which required holding others accountable for assigned duties and providing education on topics needed to perform their tasks. I was a team representative for Critical care meetings that focused on quality improvement measures and was an interdisciplinary team approach.

Goals for the Position

What new ideas or goals do you have for this position? What do you bring to the IAND State Board that will help build up Registered Dietitians in Indiana?

My goals for this position are to reach out to colleagues and peers that I have met over 15 years of being in the profession and talk with them about getting involved with IAND. Our profession relies on individuals that care and advocate for us and I would like to encourage others to get involved.
